

TWO-LEVEL-WASHER came in first in the "KüchenInnovation 2020" award

Offenburg – The TWO-LEVEL-WASHER by the warewashing technology specialist HOBART continues to win prizes and has already received several national and international awards. Equipped with two wash chambers that can wash different types of wash ware simultaneously, the dish and utensil washer was recently voted "KüchenInnovation 2020" by the independent initiative LifeCare.

In a two-stage assessment process, the TLW convinced the expert jury and the user in terms of functionality, innovation, product benefits, design, ergonomics, and hygiene. Thus, it is among the best-liked new products in the field of equipment for catering and communal kitchens. Furthermore, the innovative dishwasher achieved the best results per category and additionally received the "Golden Award".

Two in one: The world's first TWO-LEVEL-WASHER

With the TWO-LEVEL-WASHER, HOBART designed the first commercial dishwasher on the market which has a second wash chamber for simultaneous washing. By increasing the capacity per wash cycle, HOBART is sure to significantly relieve the dishwashing staff's workload. This dishwasher is not only extremely efficient but also has a very small footprint, which makes it suitable also for smaller kitchens. Despite the second washing level, the TLW with its compact design does not require more space than a conventional dishwasher.
